We have compiled the accompanying statement of assets, liabilities, and equity—tax basis of United States PostgreSQL Association (a nonprofit organization) as of January 31, 2010, and the related statement of revenues and expenses—tax basis for the one month then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

Basis of Accounting

The Association's financial statements have been prepared on the cash basis of accounting used for income tax reporting.

Accounting Terminology

Due to limitations within the accounting software used to generate the financial statements, there exist a number of account/statement titles and groupings that differ from what would be reported on the income tax basis of accounting. Listed below are some of these items:

<u>As Reported</u>	<u>Income Tax Equivalent</u>
Equity	Net Assets
Net Income	Change in Net Assets
Checking/Savings	Cash
Income	Revenue

Fund Accounting

None of the contributions, fees, sponsorships received by the Association have been received with any donor-imposed or governing board-imposed restrictions for use. The balances and activity reported in the financial statements should therefore be considered unrestricted operating funds.

Income Tax

The Association is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Code.
